

# THAT'S RIGHT, THERE'S REVOLUTION IN YOUR TOWN!

**We're here to make all Glenn Beck's worst nightmares come true: rally YOU to resolve the crisis of capitalism at the expense of the 1%.**

- **GOOD PAYING, PERMANENT JOBS**
- **FREE, HIGH QUALITY PUBLIC EDUCATION AND HEALTHCARE**
- **THE ABOLITION OF ALL STUDENT DEBT**
- **AN END TO SECOND-CLASS CITIZENSHIP**
- **THE RIGHT TO DEMOCRATIC FREEDOM OF EXPRESSION AND ASSOCIATION AS PART OF YOUTH CULTURE**

We're here to bring **YOU** into the fight to eradicate poverty, homelessness, hunger, unemployment, wars and military occupation, racism, homophobia, discrimination, and bailouts for the billionaires.

We're here to bring **YOU** into the struggle to defend our democratic and civil rights, our environment, our trade unions, and our standard of living against the austerity brought on by the billionaires' government and political parties.

We're here to bring **YOU** into the fight to build a mass revolutionary youth movement alongside the working class to help tear down the rotten capitalist system and the governments that protect it for the benefit of the 1% and bring the 99% to power.

We're here to bring **YOU** into the battle to construct a genuinely democratic workers' government immediately responsible to and controlled by **YOU** and all the poor and oppressed currently under capitalism as the basis for constructing a democratically-planned economy to meet human needs, not employers' greed.

We here to bring **YOU** into the struggle for a more just, egalitarian world—for the victory and consolidation of a world without artificial national borders, for a society in which humanity economically and politically cooperates with itself as opposed to market competition to meet the basic needs and wants of all, where inequality is gradually eliminated making social classes a matter for the history books and renders the need for state power and repression—even one that previously served our interests—entirely unnecessary. This is nothing else but socialism; it is what we at **REVOLUTION** want to help **YOU** to organize and struggle for, as it is **YOUR** birthright and historic mission.

Glenn Beck might cry a river over our struggle to obtain these noble and necessary goals. We won't shed a tear for him or the system he praises as we bring it down piece by piece.

Parents, lock up your sons and daughters—**REVOLUTION** is here to win them to the fight for democracy, freedom, and Communism! **JOIN US TODAY!**
